This marks the conclusion of a journey starting firstly with the Elite project, and subsequently with listing on the AIM Italia market in June 2017. We had already announced the goal of transferring in a short timeframe to the main market and to drive growth further both organically and through acquisitions. We are therefore very proud of this achievement, which for us represents only the beginning of a long path. We are confident that the STAR segment - which represents the very best of Italian enterprise - will provide our company with real visibility to Italian and overseas investors in the future, while today we are ready to tackle this challenge”.

The new Company By-Laws, effective from today, in accordance with the resolutions of the November 30, 2018, shareholder’s meeting, is available to the public on the Company’s website ([www.wiit.cloud](http://www.wiit.cloud)), under the section “Governance / Documents”.
