

## PRESS RELEASE

### **WIIT renews its contract with a retail leader for five years: management of mission-critical systems, including SAP, in a Secure Private Cloud, for over €2.6 million**

**Milan, 16 April 2026 – WIIT S.p.A.** (“WIIT” or the “Company”; ISIN IT0005440893; WIIT.MI), one of Europe’s leading players in the enterprise *cloud computing* services market, specialising in the provision of continuous *private and hybrid cloud* services for critical applications, announces the renewal of a five-year contract worth over **€2.6 million** with a **major client in the retail sector** (the “Client”) for the provision of Secure Private Cloud services.

The new contract provides for the management and hosting of the Client’s mission-critical application systems on WIIT’s *private cloud* infrastructure, supporting the company’s main application platforms, including SAP.

Thanks to WIIT’s proprietary platform and its established specialist expertise in managing complex and critical workloads, the Client will benefit from a highly resilient technological environment, hosted within the *Premium Zone* infrastructure in the WIIT Italy North-West Region, capable of supporting its operational activities and business processes, whilst ensuring stability, operational efficiency and high service levels.

Business continuity will be guaranteed by a Disaster Recovery site located in the WIIT Italy North/East Region, designed to ensure high availability and geographical separation from the primary environment.

This renewal consolidates a strategic partnership focused on business continuity, security and the Customer’s IT performance, allowing the Customer to continue relying on a reliable, scalable technological infrastructure designed to guarantee high levels of data protection, thanks in part to the provision of services from one of WIIT’s Tier IV-certified data centres.

*"The renewal of this agreement confirms WIIT’s ability to support its customers in managing complex and strategic application systems, ensuring operational continuity, security and performance," commented Alessandro Cozzi, CEO of WIIT. "The renewed trust from a leading retail operator testifies to the value of a robust service model and a proprietary cloud platform designed to support business-critical environments in the long term. Added to this is a wealth of certified expertise that has set us apart for twenty years: WIIT is recognised as an SAP Operations Partner, confirming our excellence in the management of critical applications and business processes."*
