

PRESS RELEASE

WIIT:

New five-year agreement signed for Cloud services worth approximately Euro 2.1 million with a leading Italian company in the Healthcare sector

Milan, 20 March 2023 – **WIIT S.p.A.** ("WIIT" or the "Company"; ISIN IT0005440893; WIIT.MI), one of the main European players in the market of Cloud Computing services for businesses, focused on the provision of continuous Hybrid Cloud and Hosted Private Cloud services for applications critics, has signed a **five-year agreement**, for a **total value of approximately Euro 2.1 million**, with **an important Italian company** (the "Client"), operating in the health sector, specialised in services dedicated to prevention, diagnosis and treatment.

The Client chose WIIT as its partner for the next five years. WIIT, through its facilities and expertise, will enable the Client to benefit from highly resilient cloud services, thanks to a high reliability configuration on its two proprietary Tier 4 Data Centers in Milan, the second of which has just been certified by Uptime Institute, together with a Disaster Recovery service in its own secondary Data Center. The services will then be made available to its users with a Zero Data Center logic that will allow, in addition to resilience, maximum flexibility, scalability and the use of the latest technologies available on the market.

All systems will then be hosted within the WIIT Data Center network with H24 support.

"We are very happy with this new agreement that strengthens our presence in markets such as Healthcare, which provide critical services for people's health," commented **Alessandro Cozzi, CEO of WIIT**.

WIIT S.p.A.

WIIT S.p.A., a company listed on the Euronext Star Milan ("STAR") segment, is a leader in the Cloud Computing market. The company has a pan-European footprint and is present in key markets, such as Italy and Germany, positioning itself among the leading players in the provision of innovative Hosted Private and Hybrid Cloud technology solutions. WIIT operates 17 of its own Data Centres – 3 in Italy, 2 of which are Tier IV-certified by the Uptime Institute, and 14 in Germany – and has 6 SAP certifications at the highest specialisation levels. Its end-to-end approach enables the company to provide its partner companies with customised, high value-added services with the highest security and quality standards for the management of critical applications and business continuity, while guaranteeing maximum reliability in the management of the main international application platforms (SAP, Oracle and Microsoft).
