

## PRESS RELEASE

### **WIIT signs a new five-year contract worth 2.8 million euros for cloud ERP services with a leading company in the manufacturing sector**

**Milan, 21 October 2024 – WIIT S.p.A.** (“WIIT” or the “Company”; ISIN IT0005440893; WIIT.MI), one of the main European players in the Cloud Computing services market for enterprises, focused on the provision of continuous Hybrid and Hosted Private Cloud services for Critical Applications, announces the signing of a new **5-year contract** worth **approximately 2.8 million Euros**, with a major company (the “Client”) operating in the manufacturing sector.

The Client chose WIIT precisely for the high resilience and reliability guaranteed by the company's Secure Cloud model, the only Cloud Provider in Europe to boast three Tier IV-certified data centres by Uptime Institute. Indeed, thanks to its established presence in multiple regions, including Italy, Germany, and Switzerland, and its network of data centres with the highest security standards, WIIT is able to ensure the uninterrupted provision of services to its clients, even in critical events such as cyber attacks, which are currently the main cause of system downtime.

The signed agreement includes the migration of the customer's ERP platform to WIIT's Cloud. Such a critical application will be managed and hosted with the highest resilience and reliability within the Premium Zone in the Italy North-West Region. The Client has also chosen to activate the Disaster Recovery functionality, provided by the Premium Zone in the Region Germany West, which will ensure business continuity, resilience, and usability, essential factors to support critical business processes.

*"We are extremely satisfied with this new contract signed with a leading company in the manufacturing sector, which, once again, confirms the validity of our Secure Cloud model capable of responding to the stringent security, robustness and performance requirements demanded by highly regulated sectors, like this one,"* commented **Alessandro Cozzi, CEO of WIIT**.

#### **WIIT S.p.A.**

WIIT S.p.A., a company listed on the Euronext Star Milan (“STAR”) segment, is a leader in the Cloud Computing market. The company has a pan-European footprint and is present in key markets, such as Italy, Germany and Switzerland, positioning itself among the leading players in the provision of innovative Hosted Private and Hybrid Cloud technology solutions. WIIT operates through managed processes, specialised resources and technology assets including proprietary data centres spread across 7 regions: 4 in Germany, 1 in Switzerland and 2 in Italy, 2 of which are Premium Zone enabled, i.e. with Tier IV certified data centres by the Uptime Institute and the highest levels of security by design. WIIT has 6 SAP certifications at the highest level of specialisation. Its end-to-end approach enables the company to provide its partner companies with customised, high value-added services with the highest security and quality standards for the management of critical applications and business continuity, while guaranteeing maximum reliability in the management of the main international application platforms (SAP, Oracle and Microsoft). Since 2022, the WIIT Group has joined the UN Global Compact. ([www.wiit.cloud](http://www.wiit.cloud))
