- Concentration on Cloud services, optimized processes and operating services organization;
- Adjusted Operating Costs of approximately Euro 46.8 million with an increase of Euro 15.4 million compared to 2021. This change is attributable to the increase in electricity costs, particularly in Germany, more than doubled compared to 2021, to the marketing and communication costs to support growth, as well as the end of 2021 and 2022 M&A effects;
- Personnel costs of approximately Euro 29.7 million with an increase of Euro 13.5 million compared to 2021. This change is mainly attributable to the new scope of consolidation, particularly in Germany.
- The Group cost of electricity in 2022 was Euro 8.8 million, less than double compared to Euro 4.5 million of 2021, most of which was attributable to the German region.
- WIIT Group's margin impacted by higher electricity costs, margin improvement of the acquired companies continued thanks to the concentration in Cloud services, the level of optimisation achieved in the organisation of operational processes and services, and cost synergies.
